

Your giving changes lives.

Our Rescue America Hotline is operational 24 hours a day, 7 days a week. This is because we know that when a survivor takes that leap of faith to call our Rescue hotline, it could be her only moment of opportunity to get out of her exploitative situation. These moments are fleeting, and our prompt response is critical. As our volunteers answer the call, and our staff exit strategists are called into action, it is evident that the driving force behind a survivor's call is hope. She has hope that on the other end of that phone there will be someone who can help.

So far this year, your generosity is fueling the rescue of survivors across America. From rural areas to large cities, **50 survivors have exited the life of sexual exploitation from 29 cities.**

Our Hotline team works diligently to fan the flame of her hope by calling out her true identity and inviting her to take our hand towards freedom and healing. Thank you for the ways that you have joined with Rescue America and for giving the gift of freedom to survivors across the nation.

“Through our outbound calls at our Outreach Hub, we have had the opportunity to speak with several women. In each of those conversations, we feel a mix of sorrow and hope. We pray that every conversation is potentially one step out of a dark, painful circumstance for these women.”

- Outreach Hub Ambassador

Stronger together.

At Rescue America, we are incredibly grateful for the divine partnerships across the country who believe in the transformative power of God's love and truth. Nikki called our Rescue hotline seeking to find placement in a long-term care program. After assessing her situation, our Hotline team strategized with one of our preferred partners, and this survivor took the brave steps to travel cross-country to safety. Thanks to our partners at Southwest Airlines who covered the cost of her travel, she arrived at our partner program overwhelmed with joy. Our Exit Strategist shared that the love and genuine care Nikki experienced moved her to tears and Nikki said, *"I feel so loved talking with you, like a newborn baby being placed on your chest"*.

The celebration continues...during this time with our preferred partner, Nikki accepted Christ as her Lord and Savior and was recently baptized! Praise Jesus for Nikki's salvation and that she is continuing her healing journey with the Lord into long-term care.

We are so incredibly grateful for these partners that took Nikki's hand and are advocating for her healing and restoration. We are stronger in this fight when we link arms together!

Our win is to place each survivor that we serve into a preferred partner program where they come to know Jesus and learn to hear the voice of God.

She is safe.

Daniela had a history of being trafficked, drugged and threatened by her boyfriend and another man in her town. She was seeking to get away from her abusers and called a local radio station asking for help.

The radio host knew of Rescue America, and while on the phone with Daniela, he called our Rescue hotline and connected her with our team. After assessing her unique situation, our Exit Strategists quickly found her placement in a safe home out of town and facilitated her transportation there that afternoon. Daniela is now in a safe place, far from her traffickers, where she is on her healing journey.

We believe God has redemption in store as she walks out the healing He has for her and we pray that Daniela will experience the Lord's voice and love for her like never before.
